The Germans are still hammering the forts and raking the trenches around Verdun with shot and shell, but so far have failed to accomplish their aims. Verdun is, it appears, a veritable Gibraltar. It is stated that at least 250,000 men have been slain in this great battle, which now enters upon its second month. The number of wounded and missing is not given.

Considerable excitement was occasioned here Monday night by a report that Robert Buchanan's home in the Valley was on fire. Investigation proved that the fire was caused by the burning of an old house on the farm of Mr. Haynes Buchanan. It is said that a number of people had died of tubercular trouble in the old house, and Mr. Buchanan decided the only safe way to get rid of the germs was to burn them.

You can thank the stars there is a place to buy your fertilizers and other things at a saving in price for cash. In the past when we were selling for credit, some paid cash on delivery; others in six, twelve and eighteen months and some didn't pay at all. Whoever sells on credit is bound to make the fellow who pays cash pay also for the fellow who is slow and the fellow who don't pay at all. He is like the fellow who climbed a tree when a bear was after him. He was obliged to do so.

Higginbotham, counsel for the Carolina Lumber Company, has received the copy of the opinion recently rendered by the Supreme court of Tennessee in the litigation, which has been pending in that State for several years over the line between North Carolina and Tennessee. Judge E. M. Fulton, of Wise, was in Tazewell this week in consultation with Tazewell lawyers, who are counsel for the people of Buchanan county in the suit of the Virginia and West Virginia Coal Company, which company claims title to a large boundary of land in Buchanan. said to be about \$1,000. It is a valuable lot and it is understood that Mr. Stump will build a house on it at once.

It is rumored that the Pocahontas liquor dealers are preparing to test the legality of the Witten-Shumate law, which passed the house and senate, making Pocahontas dry on May 1. Just what line of action has been

or will be taken is not announced, but it is reported that competent attorneys claim to have found a flaw in the bill. If this should prove true and business allowed to continue after May 1 it will seem that the liquor business in Pocahontas has about as many lives as a cat.
